YOUR WORLD. **UNINTERRUPTED.**

KOHLER EMERGENCY PREPAREDNESS / RESERVE PROGRAM

KOHLER RENTAL

The Power to Keep Your World UNINTERRUPTED.

Plan for your temporary power needs in advance of severe weather or other disaster, with Kohler® Rental. When you reserve the power you need to meet your facility and operational requirements in advance, you'll not only benefit from peace of mind by minimizing your risk, but also benefit from pricing discounts on Kohler Rental generators, cable and ancillary equipment. The Kohler Rental team is a dedicated group of professionals operating nationwide, to provide the backup and support necessary to deal with critical situations, regardless of location.

You concentrate on the many other aspects of emergency planning, knowing that Kohler has you covered when it comes to power.

The Kohler Emergency Preparedness / Reserve Program

Pricing

While equipment can certainly be called for during a disaster for week-to-week rentals, equipment reserved in advance is discounted, based on the length of the contract. Most importantly, you are guaranteed equipment when most critical.

Technical Services and Design

Kohler offers a turnkey approach, starting with a site survey to estimate your requirements for generators, cable, remote equipment staging and service. We'll then deliver a design solution customized to your needs, and can be called upon for ongoing maintenance and service.

Equipment

Kohler mobile generators – from 20 kW to 2000 kW – can be reserved and available at your location for immediate activation when utility power fails, or, can be reserved and on standby at the nearest Kohler Rental location to be deployed to your site(s) where needed. All generators come with GPS for monitoring on-board systems. Kohler also offers an array of temperature control equipment and mobile restrooms.

Generator Type	Model No.	Output Ratings–Prime					Diesel Fuel		
		KVA	kW	Amps			Capacity (gal)	Consumption (gph)	Run-time
				240 Volt, 1 Phase	208 Volt, 3 Phase	480 Volt, 3 Phase			
Standard Generators	20	25	20	83	70	30	25	1.3	19.2

Specs and features vary by product model and year manufactured. Call Kohler Rental for specs of available generators.

Standard Towable Generators

Tow-behind or trailer mounted generators, available from 20 to 2000 kW rental packages engineered by Kohler. For added security, real-time monitoring, and preventative maintenance benefits, all Kohler Rental generators feature GPS.

Power Modules

A 1500 or 2000 kW generator integrated with KOHLER switchgear in a single container. The flexible package can be used as a single, auto start/emergency backup generator, or, can be paralleled with multiple power modules and/or the utility.
